About Networking Game

It is a unique event designed in order to let Talents connect and share experiences openly. On one hand, professionals with a large experience in the area of Cybersecurity and recruiters will meet those who could become their future collaborators. On the other hand, Cyber young talents will have the opportunity to meet firsthand the best professionals.

Two Networking Game sessions of two hours each will be held, and in each one will participate 8 recruiters and approximately 60 young promises willing to dedicate themselves professionally to the world of the Cybersecurity.
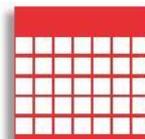

All of this takes place in a fun-filled environment which features the participation of two major Cybersecurity talents: **Antonio Ramos** (Mundo Hacker Day) and **Enrique Serrano** (Hacker High School).

When and where?

The two Networking Game sessions will take place in the **Auditorio Ciudad de León** on the following dates:

Friday, 2nd of December
between 19:00 h and 21:00 h

Saturday 3rd of December
between 13:00 and 15:00 h

Do you want to meet the top talent?

You will have the opportunity of participating in a group dynamic where you could:

- ✓ Promote your employment brand.
- ✓ Share your job offers or internships with the top talent.
- ✓ Meet face to face with potential coworkers.
- ✓ Analyze the capabilities of prospective candidates.
- ✓ Exchange contact information with cybersecurity professionals.
- ✓ Evaluate the candidates' skills.
- ✓ **Without costs of participation**

How to participate?

Recruiters (companies including startups, universities or any entity with the need of hire new professionals), seeking for Cybersecurity talents, please check the information about Rules and Regulations to participate in this online job fair, and send us the completed application form for recruiters to networking@cybercamp.es

Are you a cybersecurity talent?

If you are a cybersecurity professional, or have participated in our challenges, scholarship programs or you are a cybersecurity student, this is a great opportunity.

Why participate in Networking Game?

- ✓ If you are looking for new job opportunities, you will be able to contact first-hand with recruiters in order to take part of their selection processes.
- ✓ You will meet professionals of leading companies who are looking for talents like you.
- ✓ The recruiters will stand next to you, they will meet you and you will participate all together in the Networking Game.
- ✓ You will meet people who study/work in the same area as you.
- ✓ You will test your communication skills in group dynamics with different people and experts in cybersecurity.
- ✓ Expand your knowledge having fun.

How to participate?

If you are a professional or simply interested in developing your career in the Cybersecurity area and willing to increase your work opportunities, please send an e-mail to networking@cybercamp.es and according to availability, you will be admitted.

Tips for participating in the Networking Game

Before attending the Networking Game session, participants have to pick up their 'Welcome Pack' at the information booth. Just then participants will be ready to take part of this experience.

Inside it, you will find all you need to participate in the Networking session, so don't forget it!
